Groundwork

Groundwork has over 20 years experience supporting schools in the Black Country to develop their grounds.

Our experienced and qualified staff can help to create outdoor spaces that will benefit the formal and informal curriculum and make the grounds a more stimulating place for pupils to learn and play.

Highly Skilled Staff

You can always rely on our team to guarantee you a professional and innovative service;

- ★ Qualified team of landscape architects
- ★ Professional Design and Build service
- ★ Learning Through Landscapes accredited facilitator for school grounds

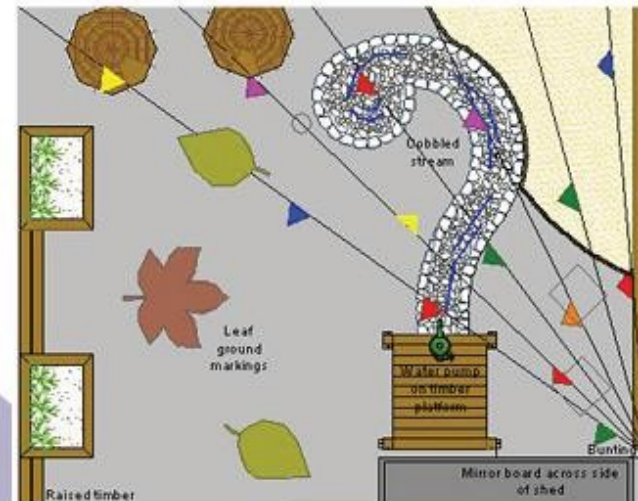

Netherton Primary School

Additional Activities and Support provided by Groundwork's Education Team:

We can assist schools in gaining accreditation in Eco Schools and the DCSF National Framework for Sustainable Schools.

We can provide tailor made projects that support the National Curriculum:

- ★ Forest School
- ★ Food Growing and Healthy Eating
- ★ Climate Change
- ★ Wildlife and Biodiversity
- ★ Waste and Litter
- ★ Energy and Water
- ★ Global Perspective and Local Well Being

What you say about us

"Staff are really happy with the job that Groundwork have done."

The children are fascinated and love the water pump, it has been used every day since the garden has been open and the children balance on the rocks around the sand pit. All the staff and parents feel it is really beneficial for the children to explore."

Kelly Kempson,
Kings Norton Children's Centre
